CHILD'S BODY FOUND

HIDDEN IN A GARRET

An Old Tragedy Unearthed in Sarnia, Ontario by Finding of Infant's Body

Sarnia, Oct. 9.—A scandal enacted anywhere from two to five years ago has been unearthed. The remains of a child were found in a box in the garret of a house on the outskirts of the town. The house had been vacant and unoccupied many times in the last few years. Local physicians say the child was about seven months old. It was stowed there at least two years.

FOUND DEAD.

Oxibow, Oct. 9.—Miss McFarlane, an old resident of this place, was found dead in her house here yesterday. She is supposed to have been dead a couple of days.

THREATENS TO SHOOT

The City Coal Co. of which J. R. Branton is the principal owner, have been employing about thirty men at this mine, working eight hours a shift. Not satisfied with the amount of work being done they have decided to reduce the staff to two shifts of ten hours each. First, an illiterate foreigner employed by them, has taken objection to the change and is said to have threatened to shoot any one going to work or Mr. Branton on sight.

Developments are looked forward to this evening when the night shift goes to work.

ATHLETICS AND EXHIBITIONS

(Bulletin Special Correspondence) Strathcona, Oct. 9.—Rev. A. M. McDonald of Edmonton preached in the Baptist church here on Sunday evening, from 1st Timothy 4:8. His discourse was mainly upon (a) Athletic sports; (b) Agricultural fairs. He said athletic sports were good and healthful, but had elements were sometimes connected therewith. He said also that agricultural fairs when properly conducted were stimulating and elevating, but denounced in strong incisive language the methods by which some of those fairs were now conducted. He mentioned Edmonton fair and Strathcona races as examples, and praised the Hon. A. C. Rutherford, Acting Mayor Douglas and the town police for the prompt manner they stamped out the objectionable features at the Strathcona races.

R.T. OF T.

To the editor of the Edmonton Bulletin.
Sir:—Will you kindly show me to say to the Edmonton public that an Edmonton council of the Royal Templars of Temperance meet in the Unity Hall, Sandison block, on the second and fourth Thursday of each month. This order has for its object the promotion of total abstinence, mutual aid and the development of social purity.

It also offers opportunity for the culture of latent talent, and educates the social side of our young people's life.

It provides for the young men and women of Edmonton a place where they can safely spend pleasant evenings and help a good cause.

All further information will be cheerfully supplied by your general recording secretary, Mr. James Nicholas P. O. Box 649, Edmonton.

Apologizing for using so much space and hoping you will publish this, I remain yours sincerely,
William W. Leonard.

MR CROSS SPEAKS TO-NIGHT

Hon. C. W. Cross has been invited to address the electors at the public meeting in the rink this evening and has accepted the invitation. It is understood that a fair division of time has been arranged and a full discussion of public questions may be expected.

LIBERAL CONVENTION

Stony Plain Selects in James McPherson Standard Bearer in the Coming Campaign

The Liberals of the Stony Plain constituency met in convention on Saturday in Miller's hall and selected Mr. J. A. McPherson candidate for the coming elections. The convention was most thoroughly representative. Of 47 delegates chosen by the primaries over forty were present and throughout the deliberations harmony and enthusiasm prevailed.

The delegates in attendance were: McWassie—Hans Brown, D. McDonald, J. A. Young.
White Horse Lake—W. G. Blawett, Lee St. Anne—J. E. McConnell, Jas. Anderson, W. Yates, P. Gunn.
Onaway—J. O. Williamson, W. P. Beaupre.

Oxbow—D. Musselman.
Glory Hills—L. Umblick, H. Struwe, J. Spade, P. Miller, J. Yost.

Ward—H. Lehman, G. Emerson, A. Burger, W. Washburn.

Rosenthal—J. Litzberger, S. Zippel, F. Wanick, M. Katscherovsky.

Stony Plain centre—J. E. Foerster, L. Ulmer, M. G. Ulmer, J. Endreas, J. Barron, J. Wendel, J. Miller.

Spence Grove—H. Loeblick, F. Gaebele, Sr., J. Schultz, F. Gaebele, Jr., P. Gaebele, J. A. Patullo.

North View—F. A. Smith, G. J. Welbourn, J. Turner.

St. Leon—M. Letellier.
Stony Plain—A. Kuhl, P. McPhoe, J. Bradley, G. L. Gague.

The meeting was called to order shortly after two o'clock and Mr. G. J. Welbourn elected chairman, with Mr. J. A. Patullo secretary.

After the credential committee had concluded their labors, nominations for candidates were called. Two names were submitted, J. A. McPherson and S. J. Truscott. Voting took place by ballot and resulted McPherson 27; Truscott 18. Mr. Truscott at once moved that the nomination be made unanimous and the motion was carried amid much enthusiasm.

Hon. C. W. Cross addressed the meeting briefly congratulating the delegates on the spirit shown and expressing the confidence that in selecting a candidate they had chosen a winner.

A strong central committee was chosen consisting of a representative from each polling sub-division with Mr. G. J. Welbourn as president.

CRICKET CLUB DINNER

The cricket club gave a dinner in the Pendennis hotel on Saturday evening that was thoroughly enjoyed by all present. The Edmonton club had won the final game for the Ochsner trophy from Fort Saskatchewan in the afternoon and H. E. Sandeman, secretary of the Strathcona club, made the presentation for the donor.

Mr. Lemaitre in proposing the toast "The Fort eleven," alluded to the great hospitality shown by the Fort to visiting teams, the hard-fought matches, and the impetus given the game by Major Strickland and H. Ochsner.

Mr. Slocow welcomed the guests, including Mr. Sandeman, the energetic secretary of the Strathcona club. It was a great disappointment to all that Major Strickland, R. Ochsner and B. Secord were not present, as their sportsmanlike instincts were appreciated. Mr. A. H. Jones proposed the toast to "The Ladies" and all united to thank them for their interest and attendance at the matches. The company broke up at 12 o'clock having spent a most enjoyable evening.

The Ochsner trophy is on view at Rolfe & Kenwood's real estate office.

POLITICAL MEETING TO-NIGHT

R. B. Bennett, leader of the Conservative party in Alberta will address a public meeting to the electors in the Thistle Rink this evening at 8 o'clock. The Hon. A. C. Rutherford and Hon. C. W. Cross have been invited to speak.

FROM THE FAR NORTH

Good Crops in the Peace River Country—Tomatoes Ripen at Wabiscaw

F. A. Conroy, treaty commissioner, returned on Friday from paying treaty to the Indians of the far north. He was accompanied on the trip by P. Bell, secretary and Inspector West of the R.N.W.M.P. post at Lesser Slave Lake. Mr. Conroy left Ottawa on April 18th. From Athabasca the party went down to Peace River crossing with Bredin and Cornwall's transport and from there to Fort St. John by the R.C. mission steamer, arriving there on June 4th. Coming back to Dunvegan a raft was constructed and the trip down stream to the Chutes made in this. They canoed to the Red River and there caught the H.B. Co's steamer to Chipewyan. From this point the trip to Smith's Landing was made on the steamer Primrose here the H.B. steamer Rigley was met and took the party down to Fort Resolution. Hissop and Nagle's steamer was taken to Hay River and the return trip made on the R.C. mission steamer. At Fort Resolution the commission waited the H.B. transport coming south, coming with this as far as Pelican Portage. Here the Pelican river up which the trip to Wabiscaw is usually made in canoes, was found almost dry and the trip had to be made overland by pack-train. From Wabiscaw the party went across country to Sturgeon Lake and back to Lesser Slave Lake.

Treaty was paid at the following places: St. John's, Dunvegan, Peace River Crossing, Vermilion, Red River, Chipewyan, Fond Du Lac, Smith's Landing, Fort Smith, Fort Resolution, Hay River, Fort McMurray, Wabiscaw, White Fish Lake, Sturgeon Lake, and three points on the Lesser Slave Lake.

The Indians at the points visited were found to be in good health and prosperous. The year's hunt was good, moose, bear and caribou being plentiful.

Early in June the wheat at Peace River crossing was from seven to eight inches high, and it is understood harvest in that district was completed on August 15th. J. Carson who has been there for several years is reported to have about two thousand bushels of splendid wheat.

Mr. Conroy is somewhat enthusiastic over the agricultural possibilities of the Peace River region and other districts in the north. The country south of Sturgeon Lake is rolling with an incline to the south and has every appearance of being splendidly adapted for agriculture. Along the lower Peace there are six hundred miles of splendid land which owing to the low altitude is admirably suited to grain raising. This prairie the Indians claim requires five days to cross and thus must be a very large area.

Tomatoes were ripening on the vines in the open at Wabiscaw on September 2nd and no frost had occurred there up to that date.

At White Fish Lake the gardens at the mission were splendid.

The party had new potatoes from the H.B. gardens at Fort Resolution, Great Slave Lake on August 25th.

Mr. Conroy leaves the latter part of the week for Ottawa.

HOT WATER BOTTLES

A Hot Water Bottle to give good service must be made of live rubber.

All these Hot Water Bottles are made of the best Para rubber grown in Brazil.

Each one is good for several year's use.

THE HEINTZMAN PIANO LEADS

Three Undeniable Reasons Why a Heintzman Piano is the Best

FIRST—It is the best piano made and acknowledged the standard of the world.

SECOND—It is the greatest piano value for the price paid, and is consequently the cheapest in the world.

THIRD—The mere fact of the possession of a Heintzman puts the seal of supreme approval upon the musical taste of its owner.

A POPULOUS AND WEALTHY PROVINCE OR
POVERTY AND WILDERNESS
 The nearest approach to a land policy which has as yet been propounded by the Alberta Conservatives is the following extract from an editorial published in the Calgary Herald a few days since.

Do the Hudson's Bay company, the C.P.R. and the C.N.R. find that very very little revenue can be obtained from the ownership of land areas in the West?

Turn to the last annual report of these companies.

For the year ending May 31st, last, the receipts of the H.B. Co. from the sale of lands were \$235,740 or about \$1,170,000.

During the year ending June 30th, last, the C.P.R. sold lands for a total price of \$1,760,232.

During the same year, C. N. R. lands were sold for a total price of about \$800,000.

Adding these three amounts we get a total of \$3,730,000.

While even the doughty Mr. Bennett might hesitate to admit responsibility for the utterances and proposals of the Herald the above paragraph constitutes the only semblance of a land policy which has as yet emanated from the Conservative ranks and may be supposed to represent the ideals and purposes of that party regarding the administration of Crown lands.

It is therefore of very considerable and material importance to the electors of the province to examine the tendency and the inevitable consequences of the policy here proposed.

It is worth of note that the figures given are the gross receipts of the companies mentioned and that no notice is taken of the expenses incurred in maintaining the advertising and land departments of the companies without which the sales of these lands would have been impossible.

Yet it is a common argument of the railway corporation with which Alberta Conservatives stand allied, that the expenses connected with the sale and settlement of railway lands are such as to leave the corporations owning the lands little profit from the sale save the revenue which is created by the settlement of the lands and the consequent increase in passenger and freight traffic.

Assuming as a moderate estimate that these expenses totalled only 50 per cent of the gross receipts from the land department, the net income of the companies from the year's operations throughout the entire West was \$1,875,000, just \$225,000 more than each of the new provinces will receive per annum on account of lands when the settlement of the country has approached reasonably normal conditions.

Therefore, when the West is favored by a tide of unprecedented prosperity and when the Federal Government is devoting upwards of one million dollars per annum to maintain the policy which has created that prosperity, the combined land sales of these corporations throughout the entire West nets only 50 per cent more than the annual subsidy granted each province in lieu of their lands, and only three-quarters of the annual land subsidies given the two provinces of Saskatchewan and Alberta.

When the land-selling policies of these corporations is most successful the net proceeds of these departments is 25 per cent less than the perpetual annual land subsidies of the two provinces.

It is further worthy of note that the lands which were disposed of last year by these corporations have passed forever from their hands and can be to them no further source of revenue.

Every acre of land sold is a decrease of the holder's assets and the net sales price represents his total and ultimate income from the land.

Year by year these assets are shrinking and the more successful the land departments the more rapid the shrinkage.

If therefore the Crown lands of the province were administered according to the light of the Alberta Conservatives, the more successful that party the poorer the province would become and the direct tendency and necessary outcome of such a policy, would be a condition in which the province had neither lands to sell nor subsidy in lieu of them.

Under the terms of the Alberta bill which makes provision for the continuance of the present system of land administration as a means of settlement, the more successful that policy the greater the provincial subsidy from the Dominion, and the greater the provincial revenues from the sources directly under provincial management. On the other hand the more successful is that policy the greater is the Federal revenue from the tariff, the postal department and those other sources which contribute to the Federal treasury. It is therefore in the direct interest alike of the Dominion and the Province that this policy of land administration should be continued and the more successful its operation the better for all concerned.

Not only would the policy suggested by the Herald be suicidal—it is fortunately impossible. The corporations owning lands in Western Canada today are able to sell those lands only because of their favorable location or because they have been selected by experts as of better quality than much of the free land yet available. On what principle or by what means the province could so select the lands for sale that they would be salable without impeding settlement and increasing the burdens of the tax-payer, we have not been informed, nor is any information on such a material and vital point likely to be given by the propounders of this policy for revenue.

The policy suggested by the conservative organ is in direct opposition and in absolute hostility to the land policy which during the last nine years has transformed the West from an unpopulated and unprogressive wilderness into settled and progressive provinces. That the corporations holding lands in Western Canada today are able to sell those lands at a profit or to sell them at all is directly and all but entirely due to the fact that the Federal Government has been able, and has utilized the opportunity of offering to the people of other countries the inducement of free homesteads in the Canadian West. In the words of the Government of Sir John Macdonald:

"The great attraction which the Canadian Government now offers, the impressive fact to the mind of the men contemplating immigration is that a well known and recognized Government holds unfettered in its own hands the lands which it offers free, and that the Government has its agencies and organizations for directing, receiving, transporting and placing the immigrant upon the homestead which he may select. And if the immigration policy of the Dominion, which involves so large a cost are to have continued success and to be of advantage to Manitoba and the North West Territories your sub-committee deem it to be of the utmost importance that the Dominion Government shall retain and control the lands which it has proclaimed free to all comers. Were there other considerations of sufficient force to induce them to recommend their transfer to Manitoba, and as a consequence and by precedent the surrender to the province to be created from the North West Territories, all the land within their boundaries then they would advise that the provinces holding the lands should conduct their own immigration operations at their own expense."

An efficient immigration policy is the prime need of the West for many years to come. But an effective immigration policy can only be carried on by the Government in whose hands is the power to offer the inducements which have been found effective in drawing settlers to the country. The great attraction to prospective immigrants, has been, is, and will continue to be, free homesteads. That conditions have been produced here which enable the land holding corporations to dispose of their lands at a profitable figure or to dispose of it at all is due to the fact that the Dominion Government had lands to give away, and gave them away. The West has learned by both good and bad experience that the most profitable disposal which can be made of that public land is to give it away to the man who will cultivate it.

In proposing a policy of treating the lands of the province as a means of revenue rather than a means for settlement, therefore, Alberta Conservatives stand for a policy in practice impossible and in theory ruinous as against a policy of land administration for the settlement and development of the country with an annual subsidy guaranteed for all time larger than the most sanguine exponent of the Conservative policy could hope to secure from the better of the public resources in the most prosperous seasons.

R. A. Robertson, Sole Agent
 Edmonton

The selection of tobacco takes time and great care—the conditions of its growth, the soil, the planting, and the cultivation, must all be considered.

I have studied tobacco from the seed to the cigar. I have a thorough knowledge of the qualities grown on the different plantations in the Manicunga district of Cuba, where the best tobaccos are produced. It is from the best of these plantations that I buy the filler of my

Pharaoh Cigar.

I was the first manufacturer in Canada to use Manicunga tobacco. It proved such a winner that the tobacco agents in New York sold thousands of boxes of tobacco under that name that was never within one hundred miles of the district.

I visit these plantations every season, and personally select the tobacco I buy. The growers there call me a tobacco crank because I am so careful and particular in the selection of my tobacco. I would rather be thought a crank than jeopardize the quality of my Pharaoh cigar.

I know that every time you smoke a Pharaoh cigar you will thank me for being a tobacco crank—that is full recompense for my trouble and care.

None genuine unless branded "Pharaoh" Price 10 cents.

THE DAWNING OF A NEW EMPIRE IN WESTERN CANADA

By EMERSON DEPUY, in The Des Moines Homestead

In my former article I bade good-bye to my readers at Banff in the Canadian Rockies, and before leaving this beautiful spot a word or two regarding it may be of interest.

It is the Canadian National Park, maintained by the government just as the Yellowstone is cared for by our own. It is part of a park system comprising 5,000 square miles of territory. To the courtesy of Mr. Douglass, the Government superintendent, I am indebted for a most charming ride in a buggy along the side of precipices and through miles of entrancing scenery, which once beheld, nor time nor space can ever efface from memory's tablets.

There are eighty-five miles of the finest kind of roads, built and maintained at government expense, and at every turn the eye is delighted with an ever changing and unfolding panorama of scenic wonders which are so majestic and impressive that you do not try to use any adjectives because you realize how utterly inadequate is the language of puny man to describe the works of Almighty God.

After our ride we took a plunge in the hot sulphur baths, the water bubbling up from beneath a mighty rock.

I noticed that one of our newspaper men was very silent and thoughtful as he gazed into the water, and asking the reason, he informed me that the strong brimstone smell was overpoweringly suggestive, and he guessed that in order to have any future peace of mind he would have to stop lying about the circulation of his paper when talking to advertisers.

Thus does conscience, coupled with suggestion, make cowards of us all. On Sunday night, with a long-drawn sigh, because we must bid a good-bye to all the glories of crag, and peak and rocky dome, but happy nevertheless that our faces were turned homeward, we took our departure.

Monday was spent at Medicine Hat, in the cattle country, known as the town "where the weather comes from." It was such a beautiful day that I hunted up the man who had charge of the weather department, and asked him if such days were frequent in Medicine Hat.

"Don't have any other kind," was his reply.

"Well, then," said I, "how do you account for some of the abominable stuff we get down in Iowa?" He then explained that as all the weather came to him first, he usually sorted out the very best for Medicine Hat, and sent the rest on into other sections. Just then I heard a roaring noise, which caused him to jump up and pull a lever, remarking as he did so, "Another cyclone; just sent that one down in South Dakota."

Medicine Hat is the great natural gas town. Gas is so much cheaper than the time of a \$3 a week boy, that the street lamps are never turned out, but burn day and night. The city owns the wells and furnishes gas to citizens for twelve and one-half cents per thousand net. To manufacturers a rate of five cents per thousand net is offered under certain conditions. This is bound to make Medicine Hat a great manufacturing centre.

A banquet was tendered our party here, and several of the agricultural orators were flapped. I noticed a very dejected look on the face of the mayor as we were leaving the dining hall, and ventured to ask him if anything had gone wrong. "Why," said he, "I thought we had cheap gas here, but we are not in it with your party."

The menu cards bore this inscription: "Complimentary Banquet to the Agricultural Editors from Uncle Sam's Country, at Medicine Hat in the Banana Belt." As I looked over those old plans I wondered about the "belt," and was beginning to think some fellow had been talking through his (Medicine) Hat, when one of the gentlemen kindly arose and explained that the reference to the "Banana Belt" was a joke. He said they understood Americans were fond of jokes and they thought that was a mighty good one.

So did we.

After that we would not have been surprised had some one informed us that the peach belt extended from Hudson Bay to the Arctic circle.

Tuesday, September 5, we spent at Weyburn, Saskatchewan, in as fine a

wheat country as one could wish to see. Evidence of prosperity abounded here. The country is fast settling up, there being very little wild or unimproved land anywhere within a five-mile radius of the thriving little town. I was especially impressed with the high class of buildings on all the farms about Weyburn, showing plainly that all the farmers were prosperous and that they considered comfortable, convenient houses and barns necessary to the happiness of themselves and their stock.

In fact, the ride about Weyburn presents at every turn an object lesson upon the profit to be derived from wheat farming.

I talked with a young fellow who came there about six years ago. He said when he got off the train at the depot his worldly wealth consisted of fifty cents. He was a country school teacher and saved some money from his first year's work, when he invested in land, and homesteaded 160 acres next to it. He took me out to see his place. He now owns 1,000 acres of choice land, most of which he bought in 1900 at \$3 per acre. I asked him what it was worth now, and he said the crop of wheat on it was worth \$25 per acre; that I could figure the value of the land myself.

A home and a competence as the result of only five years' work. Where else, I asked myself, could such results be obtained?

Bidding goodbye to Weyburn in the morning we enjoyed a daylight ride to Winnipeg through the older set-

The Testing of Eyes.

is not a matter of guess-work; neither is it merely a matter of trying on ready-made glasses until a pair is found which seems to assist the sight to the extent required.

It is now an exact science, governed by principles which none but those who have studied the anatomy of the eye and the science of optics can properly understand.

To aid the skilled optician, certain INSTRUMENTS of delicate construction and capable of fine adjustment are absolutely necessary, as a thorough examination of the condition of the eye and an exact measurement of its errors are imperatively demanded before intelligent treatment can be accorded any defects found to exist.

Your eyes most likely need attention and possibly need it badly, but you find it hard to believe that the organs which have served you during all your waking hours for all the past years of your life should now play you false; the fact being that you have worked the "willing horse" to death, ignoring the fact that your eyes have been using endeavor to overcome their own defects, until they have become badly strained, and your health has most likely suffered in consequence, as physicians now readily admit the fact that a very serious strain is made upon the entire system by the special demand made by the eyes in seeking to overcome any strain put upon them.

Every day of delay in treatment of them is therefore, prejudicial to your health and you risk a general break-down of your entire system by such delay.

HEADACHES that the family physician cannot cure are caused by EYE-STRAIN and money spent in needless for such would be better employed in consulting a skilled optician.

You should not neglect your eyes a day longer!

Is it not much wiser to have a good pair of eyes, by a little immediate attention, than to defer action until the best that the most skillful optician can do is to patch up the poor, worn-out pair you may have left to you.

Have you headache? Have you eye-ache?
Do your eyes pain you? Are they inflamed?
Does print blur, or run together? Do objects appear double or mixed?
Do you see black or floating spots? Is your vision dim?
Do your eyes water or smart or sting?
These are a few symptoms of eye defects, which require prompt attention.

My optical parlors are equipped with the latest and best instruments for correct diagnosing and exact measurement of eye-defects.

For special testing by means of these instruments I make a charge of two dollars. ORDINARY TESTING FREE OF CHARGE.

STURGEON NOTES

John Milligan of Sturgeon Valley has threshed 1000 bushels of wheat from 22 acres.

Stacking is nearly completed. More grain has been threshed out of the stack than usual. Grain is turning out well.

Thos. Mulligan of Bon Accord has been ill for a few days.

A large number of people are suffering from cold, which seems to approach Grippe in severity.

C. P. R. TAKE OPTIONS IN STRATHCONA

Quite a flutter of interest in railway matters was aroused this week by the presence in the two towns of Mr. Allison of the law firm of Loombe & Bennett of Calgary, solicitors for the C. P. R., says the Strathcona Herald. Mr. Allison's mission was to complete the purchase of numerous properties in Strathcona, along the right of way from the C. and E. main line to the high level bridge survey, on which options were obtained some months ago.

Mr. Allison returned to Calgary on Wednesday and it is stated will return next week with the company's right-of-way agent to secure all the properties required to control the right of way into Edmonton. The company was careful when making surveys, to pass through as few improved properties as possible so the cost of the right-of-way through Strathcona will not be more than \$100,000.

Ladies' Plain Black Cashmere Llama, 50c

Silk Hose, black, pink, green, red, 1.50 to 6.00

REVILLON BROTHERS, LIMITED.

ST ALBERT CITIZEN DEAD

On Saturday afternoon Mr. A. Shiels of the firm of Dawson & Shiels, St. Albert, succumbed to a severe attack of typhoid and complication of jaundice. The deceased was thirty-five years of age and was well known in the city where for several years he was head of the dry goods department at McDougall & Scott's. About two and a half years ago he went to St. Albert, where he formed a partnership with Mr. Dawson, conducting a general store. Mr. Shiels was a universal favorite always respected in private life as well as in business and with his partner succeeded in building up a splendid business. He leaves a wife and two children, a boy and girl to mourn his loss.

The funeral was conducted by Rev. Father Merer, assisted by Fathers Filippot and Ladeth. The pall bearers were Messrs. E. Lessard, E. Baymer, Ed. Hart, Jos. Kelly and C. McManus.

The body was interred in the St. Albert cemetery.

DIED

HARROLD—At Lloydminster, on Friday, October 6th, David Harrold, aged 28 years.

The funeral was held at Lloydminster this afternoon at 2 o'clock. Deceased was a son of Mr. and Mrs. J. Harrold of the Strathcona and leaves a widow and two children.

SHIELS—At St. Albert on Saturday, October 7, A. Shiels, aged 35 years.

Continued From Page Three.

field wheat growing section of Manitoba. The following day found us in St. Paul, back at our starting point after fifteen days of continuous travel through a country which revealed at every turn new and hitherto undreamed-of attractions. The goodbyes were said and amid mutual regrets of the representatives of the great farm papers who had come together from so many different states, took their departure for their respective homes, and one (at least) of the great American invasions was over.

Before passing to the few deductions I wish to make from the material gathered while on this trip, I desire to pay a well-deserved personal tribute to some of the gentlemen who did so much to make this memorable journey the great success it was.

To Col. Theo. M. Knappen, secretary of the Western Immigration Association, special reference should be made. It was no small matter to plan and execute such a project, have everything come to them all right, please a lot of agricultural editors, accustomed to opulent living, and at all times maintain "the smile that didn't come off"—but the colonel was equal to the occasion.

Mr. A. H. Brightman, of St. Paul, was also a very valuable and important factor, doing everything in his power to make the expedition in the highest sense successful. To the Canadian government the members of the party felt deeply indebted for their courtesy in keeping with us most of the time from one to five representatives, ready at any moment to impart information of a reliable character on any subject which was of interest. The Hon. Charles Wesley Speers, representing the Interior department, rendered valuable services, as also did Mr. Geo. H. Grieg, of Winnipeg, representing the live stock commission; Mr. L. Mair, department of immigration; and Mr. B. N. Wright, of the interior department at Ottawa. We were also favored for a week with the presence of Mr. F. C. Potts, inspector of school lands, and first cousin to that large family of "Jack Potts," so well known throughout the country.

Now a few words regarding western Canada as the land of opportunity.

If a man desires to engage in farming he can buy land within two miles of a railroad in the newer sections of the country for \$10 per acre. His first crop of wheat on "breaking," as they call the first turn over of the sod, will pay for his land entire. This is being done over and over again. In some sections of Illinois tenant farmers pay \$8 to \$10 per year rental. They may pay it all their lives and have nothing at the end. In this new country the same amount of energy secures the home. Another thing to consider is that the land produces two crops, a crop of wheat and a crop of profits in the advanced value of the land itself, which is in many cases equal to the value of the wheat, for no it known that as soon as the land is plowed it doubles in value almost at once, as it is then transformed from "wild" to "improved" land and valued accordingly.

Land is now so high in most of the older states that the tenant farmer, just starting in with only limited means, confronts an almost hopeless proposition. Not so in western Canada. A homestead is still among the possibilities if a settler desires to secure one. The only cash outlay is a \$10 fee, but residence on the land for at least six months each year for three years is necessary before full possession may be secured. At the present rate of entry, however, homesteading will soon be a thing of the past. Last year 35,000 were taken, and as there are only about 75,000 left, it will be seen that at the present rate of entry two years more will exhaust the homesteads. There are, however, millions of acres of choice lands, owned by railroads, and the land companies, which may be purchased at from \$6 to \$10 per acre, price, of course, depending upon the distance from railroad. I found that many farmers from "the states" were coming into Canada, and the impression I received was that while we might not annex Canada either by act of parliament or act of congress, the annexation by "sections" is going on at an amazing rate. A farmer in the older states owning a farm worth \$75 per acre with a family growing up around him, realizes that at the present price of choice land in this country, he cannot purchase farms for his boys and girls, as much as he might like to, but upon investigation, he

learns that he can sell what he has and for every acre here, he may own seven to ten acres there, which will produce for him acre by acre as much as his high priced land.

In other words, it seemed to me that wheat farming in Canada presented an opportunity to gain a competence and "invite your soul" at the same time, a combination very desirable, but not always possible. Some men allow "farming" to so completely absorb them that they become like the animals they live among, giving to them more time than to their family. I heard of such a man once and when any one came to the house asking for him, his wife would say: "You'll find him out in the hog yard;

you can hardly tell him from the rest of them, because he wears a hat."

As to western Canada's possibilities, note this fact: The wheat crop this year will reach about 100,000,000 bushels. The Kansas crop will be fully 90,000,000 bushels. In other words, one of our western wheat growing states produces this year within 10,000 bushels as much as all of western Canada. There are 400,000 square miles of agricultural lands in western Canada; put upon these lands a population as dense as that of Kansas and Canada will have an annual output then of a billion bushels of wheat, an amount so great that the human mind fails to grasp its vastness.

Ross Bros Limited

Threshers' Supplies

ROSS BROTHERS, LIMITED,

Are the Head-Quarters for Threshers' Supplies of every description:

Endless Rubber Belts in 6, 7 and 8 inch, 150 ft. long; Rubber Belt, all sizes, any length; Leather Belt, all sizes, any length; Packing; Machine Oil; Cylinder Oil; Lard Oil; Threshers' Hard Oil; Rubber Hose; Iron Pipe; Pipe Fittings; Brass Fittings; Pemberthy Injectors; Ejectors; Lubricators; Oil or Grease Cups.

In fact everything required by the Thresher. You save time by coming to us, and time saved is money made, especially with the Thresher, for with the immense crop in Alberta it will keep you hustling to finish up before the snow flies.

Now that the cool evenings are coming you will need some fire. We have a fine line of

YUKON PLACER MINING LAWS.
Ottawa, Ont., Oct. 7.—An order in council has been passed applying new regulations governing placer mining in the Yukon Territory.

STEAMSHIP LINE MAY BE ABANDONED

Ottawa, Oct. 6.—It is feared here that Australia's determination to continue adding inland rates to value of goods for duty purposes will result in the discontinuation of the Canadian Australia S.S. line.

WESTERN WHEAT CROP

Ottawa, Ont., Oct. 6.—In an interview D. Mann, of MacKenzie & Mann says that the North West will yet yield a harvest of a thousand million bushels of wheat. This he says is a conservative estimate. This year's crop will be near one hundred million bushels. One fourth of which will be for export.

LAND FOR SETTLERS

Montreal, Oct. 7.—C.P.R. officials seen this afternoon stated that no big block of land had been sold to any British syndicate. The directors stated, emphatically that the company was disposing of land to settlers only, and this plan would be pursued till all holdings had been disposed of. It is thought the C.P.R. will form a land company of its own.

WARWICK ITEMS

[Correspondence]
Warwick, Oct. 4.—On September 29 a good many of the Warwick people attended the Vermilion exhibition at Vegreville.

Pupils of the warwick school took all the prizes in drawing and a prize in writing at the exhibition.

J. McCaig, I.P.S., visited our school on Tuesday, Oct. 3.

The C. N. R. steel reached the crossing at Vegreville on Saturday, September 30. The smoke of their construction train may now be seen from Warwick.

W. A. Fife of St. Pauls, spent Sunday in Warwick.

On Sunday the 1st inst. the Rev. A. B. Argue preached to the men in the several C. N. R. camps near Vegreville. His work at Warwick was taken by Mr. E. Richardson.

On the evening of October 2 Mr. and Mrs. Grads held a party in honor of the arrival of Miss Mackenzie, of London, England.

SOME MEN ARE RICH

In Edmonton today because they had foresight enough two or three years ago to buy property which, as the city grew, advanced rapidly in value. Some of them were laughed at—people called them fools—but two short years has abundantly proved the correctness of their judgment, and they are reaping the reward of their faith in the city.

The growth of the city during the past two or three years has been great, but compared with the growth of the next two or three years it will be but as the dawn of day compared with the splendor of the noon-day sun.

You have the opportunity now to do as some few did in the past.

The Groat Estate

is now on the market at prices which will look small—very small, indeed—in the very near future. The city is growing westward rapidly and ere long this estate will be the choice residential part. No part of this estate is more than two miles from the very centre of Edmonton today—in five years it will be in the very heart of the city.

There are 500 lots—50 x 150 ft.—to be sold on easy terms—one-third cash, and the balance in six and twelve months, without interest. There will be no taxes to pay for over a year.

History Repeats Itself

You can buy from two to ten lots for the same money which it will take to purchase one in the present settled part of the city. Those who sow a few dollars now will reap a rich harvest in the not-far-distant future. Don't miss the chance now—TODAY—and have to say in a year: "What a fool I was that I didn't purchase a year ago." Somebody is going to make money on this estate—why not have a share of it?

leaves Strathcona 9:00; arrives
Edmonton 9:20. Train No. 4, per-
leaves Strathcona 16:00; arrives
Edmonton 16:15.

LOCAL

—The Epworth League of Grace church will have "An evening with Browning" at the service this evening.

—Dr. Pickering, V.S., received a call on Sunday afternoon to visit Egg Lake, 75 miles east of the city, to attend a very valuable animal owned by D. Houston.

—The regular weekly meeting of Friendship Lodge No. 7, I. O. O. F., will be held in Houton's Hall on Wednesday evening, October 11. The members of the Lodge at Fort Saskatchewan will visit the local lodge that evening. All members and visiting brothers in Edmonton are cordially invited to be present. The initiatory degree will be conferred and refreshments served.

—Mr. and Mrs. J. Harold of the Sturgeon received on Friday a telegram informing them of the death of their son at Lloydminster. Mr. and Mrs. Harold left at once for Lloydminster and arrived there this morning. Deceased was very well known in the city and district, having resided at the Sturgeon until March last when he began farming at Lloydminster. A widow and two children survive him.

STRATHCONA HOCKEY CLUB

The Strathcona hockey club held a meeting last Monday night and organized for the coming season. The club are short \$115 on the last season as spring opened early and the usual number of games could not be played. It was decided to make a bid for control of the rink this winter. The following officers were elected:

Patron—Hon. A. C. Rutherford, Premier of Alberta.
Honorary president—P. Talbot, M. P.
President—Rev. W. R. George.
1st vice president—J. Gregg.
2nd vice president—W. H. Thompson.
Secretary—treasurer—V. T. Richards.
A good team will be again put on the ice and a successful season is looked forward to.

SACRED CONCERT

The sacred concert in the rink last evening was a pronounced success despite the chilly weather. About a thousand people listened to an excellent program of songs, instrumental and orchestra numbers. Miss Jessie Cameron, as usual, was well received, in her song "Sing me to Sleep." E. Wilson's trombone solo, "Ora Pro Nobis," and A. E. Hutton's flute solo, "Air Varié," received great applause.
R. G. Lowe of Calgary "charmed" the audience with his rendition of "Star of Bethlehem" and the "Lost Chord." Mrs. J. S. Richardson as accompanist excelled herself.

As the season is getting so cold no more sacred concerts will be given in the rink, though it is probable Robertson's fall will be utilized.

SENATOR FULFORD INJURED

Ottawa, Ont., Oct. 9.—Senator Fulford of Brockville received serious injuries at Newton, Mass. His automobile came in collision with an electric car. The chauffeur received a fractured skull and may die.

A Toronto paper says Sir William Mulock is to retire. Interviewed Mr. Mulock said that when he intends doing so he will make his own announcement.

PERSONAL

Miss Young went to Calgary today.

Judge Scott went to Regina yesterday.

Miss Shilleto returned to Lacombe Saturday.

Mrs. Dr. Blais returned Saturday from Quebec.

—Six cars of lumber for the C.N.R. bridge arrived on Saturday.

Messrs. T. McNamara and Horace Hume, came in on Sunday from Lloydminster.

Miss Pierce returned from Lacombe on Saturday night and will resume her duties at the public hospital.

Mrs. A. Driscoll, and Miss Driscoll, of Aylmer, Que., are the guests of Mrs. A. Driscoll, Sixth street west.

A FORESTRY CONFERENCE

Ottawa, August 21, 1905.
To the Public of the Dominion of Canada:

Canada possesses one of the largest areas of virgin forest of any country in the world and is ranked by European experts first, or among the first of the important sources of the world's timber supply for the future.

The preservation of the streams in perennial and constant flow, which is largely controlled by the forests on the watersheds, will have an important influence on the industrial and agricultural development of the Dominion. The expansion of our electrical and mechanical industries will be regulated to a great extent by water, which forms the greatest source of power in all countries, and some of our western districts are dependent on irrigation to ensure the success of agricultural operations.

In all the older provinces the clearing of the soil has been carried to such an extent that the ill effects on the water supply and on agriculture are clearly marked, while on the western prairies the need of sheltering trees for houses and fields is seriously felt by the settlers.

The early construction of the Transcontinental Railway, and of other railways, through our northern forested districts and the consequent opening of those districts to general traffic, will increase the danger from fire which has already been a most active agent of destruction.

These conditions are not new; they have from time to time received public attention, and during the Session just closed Parliament authorized the summoning of a convention for the more thorough discussion of the same.

I therefore hereby call a public convention to meet in the City of Ottawa on the 10th, 11th, and 12th of January, 1906, under the auspices of the Canadian Forestry Association, and to this convention are specially invited:

Members of the Senate and House of Commons.
Lieutenant-Governors of the Provinces.

Members of Legislative Councils and Legislative Assemblies of the Provinces.
Dominion and Provincial Forest Officials.

Members of the Canadian Forestry Associations.

Representatives of Lumbermen's Associations.

Representatives of Boards of Trade.

Representatives of Universities.

Representatives of Agricultural Colleges.

Representatives of Farmers' Institutes.

Representatives of Railway Companies.

Representatives of the Canadian Mining Institute.

Representatives of the Canadian Society of Civil Engineers.

Representatives of Associations of Land Surveyors.

Representatives of Fish and Game Associations, and
All others who take an interest in Forestry.

An invitation is also extended to the Bureau of Forestry of the United States, the American Forestry Association and the State Forestry Bureaus and Associations to send representatives to this Convention.

WILFRID LAURIER.

Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.
